Week 2
Revised Corner Star
Point 4”x4” block unit

by Nancy Myers
of Patchwork Breeze

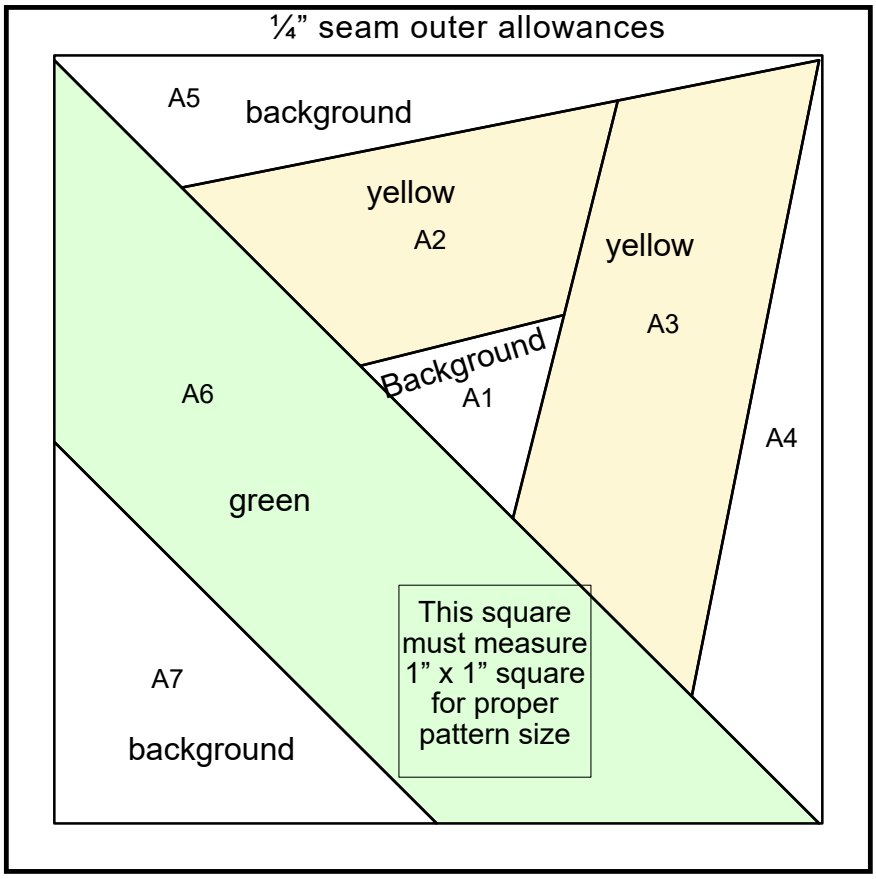
Print 2 pages of this pattern page so you have 4 total patterns.

NOTE:

**If you previously downloaded the pattern page for the incorrect 6” x 6” block unit, this page is the correct size pattern to replace it.

If you already sewed the 6” x 6” units, Directions for correcting those blocks are included on the next 2 pages.

Please accept apologies for the error.



To make these blocks:

These are foundation paper-pieced patterns.

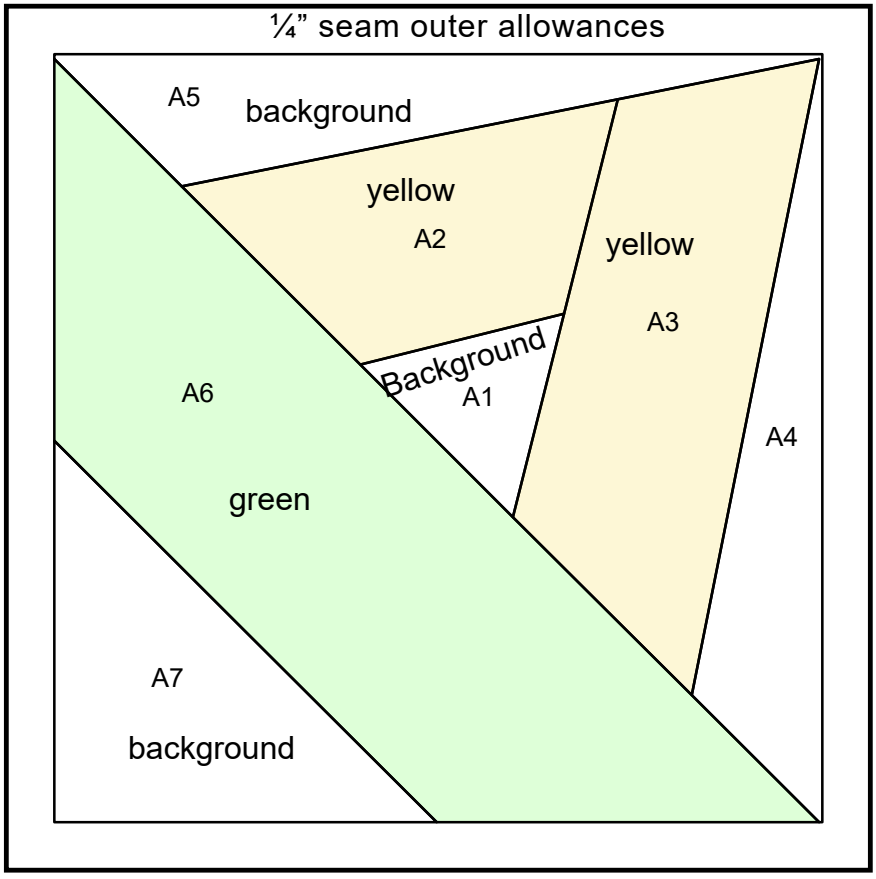
If you are not familiar with foundation paper-piecing (FPP), Here is a YouTube Video from Crafty Gemini that shows you how.

Here is the link:

https://www.youtube.com/watch?v=8uaW26igygE

And at this the link you’ll find my favorite FPP website with very clear, detailed instructions for paper piecing (and free patterns, too.) https://www.paperpanache.com/how-tos

If you made the block units using the previously available pattern, on the next page I will tell you how to change the 6” x 6” block units to the correct 4” x 4” size with minimal difficulty.

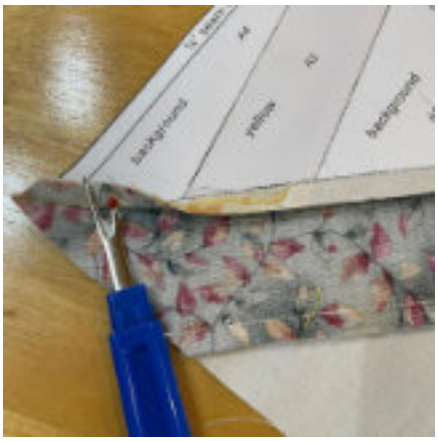


Size Adjustment of the Week 2 Corner Star Point Block Units

1) Measure 4-7/8” from the corner you will NOT be adjusting.

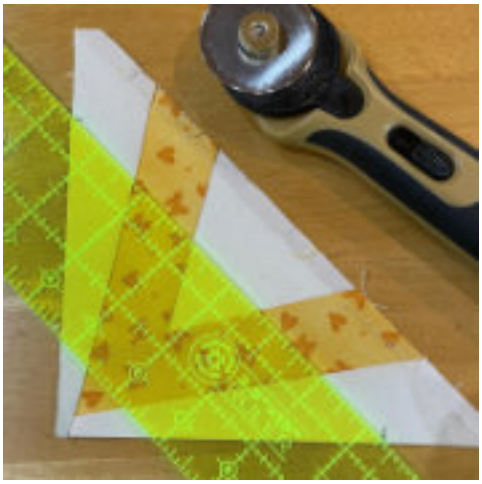
Mark both these spots on the edge of the unit (shown here with straight pins).

Then mark length with pencil.



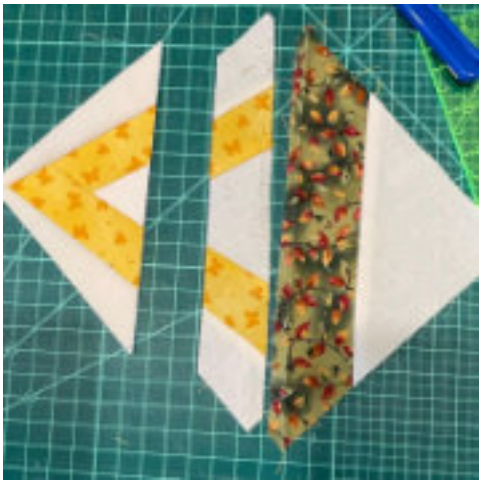
2) Remove stitches holding piece A6 to previously sewn pieces A1-5.

Press piece A6 to remove seam line and fold.

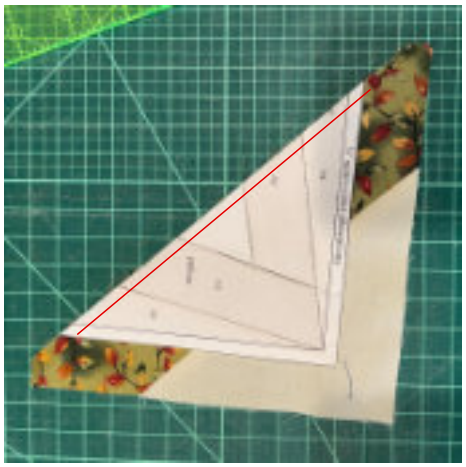


3-4) Lay cutting ruler on both pencil marks for 4-7/8”.

Cut along this line to remove legs of the star point. (see next photo)

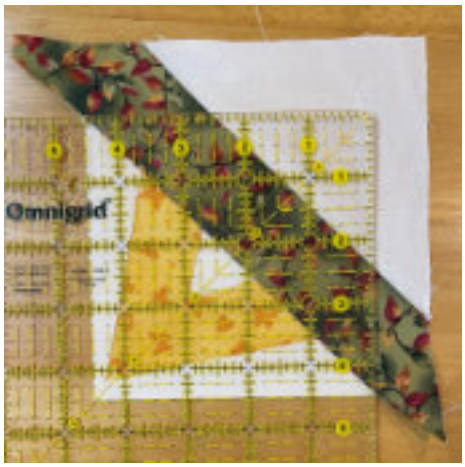


Size Adjustment of the Week 2 Corner Star Point Block Units



5) Lay the Star Point triangle piece just trimmed on the A6-7 piece with right sides together as shown above.

6) Sew ¼" seam to join the 2 pieces. (see red line)



7) Press seam away from Star Point.

Align square ruler along the 4 ½" edges of star point area.

Cut the block 4 ½" x 4 ½" to complete the fix.

8) The block has been reduced in size with just a few steps.
